PIMA DERMATOLOGY

STANDARD WOUND CARE

1) Keep dressing on for 12-24 hours.
2) Gently cleanse wound 1-2 times daily by dabbing a cotton ball soaked with GENTLE SOAP & WATER.
3) Apply a thin layer of Antibacterial Ointment, Polysporin, Vaseline, or Bacitracin (No Neosporin).
4) Continue for 5-10 days or until wound is healed.
5) Keep the wound as scab free as possible (by keeping it moist with the ointment and/or Vaseline).
6) Cover with an adhesive bandage if necessary.
